Motivated cybersecurity student with a solid foundation in network security, ethical hacking, and risk management. Currently pursuing a major in Cybersecurity and a minor in Criminal Justice at Ball State University with a 3.541/4.0 GPA. Experienced with Kali Linux, VMware, and hands-on labs involving a penetration testing and vulnerability analysis. Passionate about securing digital environments and seeking a challenging summer internship to apply and expand my skills in real-world scenarios.

Skills

Non-Technical Skills: Adaptability, Attention to detail, Critical Thinking, Team collaboration, Excellent Communication, Open source intelligence

Technical Skills: Networking, Python, Linux, System Admin Fundamental, Java, Cyber security, Ethical hacking.

Education

BALL STATE UNIVERSITY Bachelor of Science in Cybersecurity, Minor in Criminal Justice. Expected Graduation: (2027) GPA: 3.5/4.0

Lagos City Computer College – Lagos, Nigeria Diploma in Computer Studies Year Completed: (2022)

Employment

IT Support Assistant – De Best Glory Land Cyber Café, Lagos, Nigeria (2021)-(2023) : Managed and maintained network systems to ensure smooth internet connectivity and secure access for customers, Assisted in troubleshooting hardware and software issues, ensuring secure configuration of public workstations, Implemented basic security protocols such as password protection and system updates to protect customer data, Provided technical support to users, enhancing their knowledge of safe browsing practices.

Projects

Linux System Administration & Networking: Gained hands-on experience managing and configuring Linux systems, including server setup, user permissions, file system management, and troubleshooting network connectivity issues.

Network Analysis & Cisco Packet Tracer: Conducted detailed network analysis using Cisco Packet Tracer to simulate network environments. Improved network security configurations by identifying vulnerabilities, optimizing firewall settings, and managing access control lists (ACLs).

VMware & Virtualization for Ethical Hacking: Set up and managed virtual environments on VMware to simulate attack and defense scenarios. Applied ethical hacking skills learned from Udemy courses to conduct penetration tests on isolated systems using Kali Linux tools.

Kali Linux & Ethical Hacking: Proficient with Kali Linux for conducting a variety of penetration testing techniques. Used tools like Nmap, Wireshark, Metasploit, and Burp Suite to exploit vulnerabilities, analyze network traffic, and secure systems against potential threats.

Command Line Proficiency: Executed advanced Linux commands for security tasks such as configuring firewalls (iptables), monitoring network traffic (tcpdump), and scanning for vulnerabilities (Nmap).

Awards

Dean's List – Ball State University Recognized for academic excellence with a GPA of 3.541/4.0

Best Staff of the Year – De Best Glory Land Cyber Café Awarded for exceptional performance and dedication to improving the cyber café's IT systems and customer service.

Activities

Activities Cybersecurity Club – Ball State University: Active member of the Cybersecurity Club, engaging in hands-on learning and collaborative projects. Developed practical skills in cybersecurity, including creating and managing virtual machines (VMware), and staying up to date with the latest security protocols and threats. Participated in workshops and discussions to enhance knowledge in ethical hacking, network security, and penetration testing.

Culinary Skills Volunteer Member of a culinary skills group where we explore and cook international dishes. Volunteered to assist with kitchen duties, such as washing dishes and helping with post-cooking clean-up, fostering teamwork and a strong work ethic.

Volunteering

Culinary Skills Volunteer Volunteer member of a culinary skills group, where I contribute by helping with kitchen duties such as washing dishes and assisting with cleanup after cooking international dishes. This experience enhances teamwork and builds a strong sense of community.
